

LOW COST PROSTHETICS!

YOU WON'T BELIEVE THE PRICE!

Natural looking arms and hands for snowmen at no cost at all!

This solution has been around for many years.

But these two pre-medical students, of West Milford, NJ, claim to be the inventors of the prostheses in addition to the artificial noses and eyes.

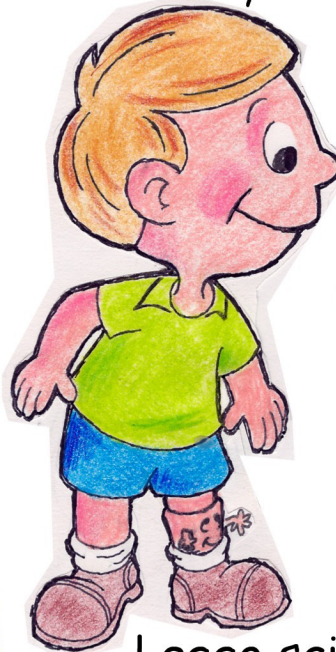

As if the arms and noses weren't enough...one of the snowmen had a heart transplant.

THE EVERYDAY ADVENTURES OF **LOUIE** and **LEGGO**

Louie and Leggo were out walking around in the snow. They came across this snowman just standing there with nothing to do.

He didn't look very happy.

Leggo said,

"I'll get two friends of mine to help him."
Leggo's friends came hopping over and picked up the snowman, got under him, and started to dance.
